PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 4 years of experience designing and implementing scalable web applications. Expertise in React.js, Next.js, Vue.js, Node.js, and Express.js. Proven track record of delivering complex healthcare solutions in agile environments.

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer | June 2022 - Present (3.5 Years)

Maren Solutions Pvt. Ltd.

Specialize in developing enterprise-level applications using modern JavaScript frameworks and libraries. Demonstrate proficiency across the full technology stack including React, Next.js, Vue.js, Vuex, JavaScript ES6+, Node.js, and Express.js.

Key Responsibilities:

- Architect and implement new features for scalable enterprise applications
- Design and develop RESTful APIs ensuring optimal performance and security
- Optimize application performance through code refactoring and best practices implementation
- Conduct thorough code reviews to maintain code quality and team standards
- Actively participate in agile ceremonies including daily scrums, sprint planning, and retrospectives
- Collaborate with cross-functional teams to deliver high-quality solutions

Software Developer | December 2021 - May 2022

SpeedLabs

Delivered robust software solutions using HTML5, CSS3, JavaScript, Vue.js, C#, .NET framework, and SQL. Collaborated with cross-functional teams to meet project deliverables and maintain code quality standards.

IN-HOUSE PROJECTS

Sanar Healthcare Application

Tech Stack: React.js | Node.js | Express.js

- Engineered end-to-end Psychiatry and Psychology consultation workflows with HIPAA-compliant patient-doctor interactions
- Developed and integrated Laboratory Management Flow for diagnostic test ordering and results delivery
- Implemented Nurse Flow functionality to coordinate home healthcare visits and patient care management
- Created Blood Donation Module with real-time availability tracking and notification systems
- Integrated real-time appointment scheduling with calendar synchronization and automated reminders

Sanar Operations Dashboard

Tech Stack: Vue.js | Vuex

- Implemented real-time appointment tracking system with comprehensive booking details and patient information
- Developed database management interface for healthcare providers, doctors, and hospital networks
- Created administrative controls for managing credentials, availability schedules, and service offerings
- Built analytics dashboard for monitoring telemedicine operations and service utilization metrics
- Implemented role-based access control for appropriate data visibility and operational permissions

EDUCATION

Bachelor of Technology (B.Tech) - Jaipur Engineering College | 2021 | 70.48%

Higher Secondary (Class 12th) - Shree Mahaveer Digamber Jain Sr. Sec. School | 2016 | 76.80%

Secondary (Class 10th) - Saraswati Vidya Niketan Secondary School | 2014 | 80.67%

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, Vue.js, Redux Toolkit, Zustand, Vuex, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, Python, MongoDB, RESTful APIs

Tools & Methodologies: Git, GitHub, Agile/Scrum

PERSONAL PROJECTS

Tic Tac Toe Game

Link: tictactoe-game-by-naman.netlify.app

Interactive game built with React and React Hooks demonstrating state management and responsive UI design.

Joke Generator Application

Link: joke-generator-app-v1.netlify.app

Dynamic application utilizing React with external API integration, asynchronous data fetching, and error handling.
